DOMUS
WINNING THE FUTURE THROUGH INNOVATION

Front loading washer extractors
The new DOMUS high, medium and low spin front washers offer an advanced design and technology, combined with a huge variety of accessories and options.

High G Factor, the touchscreen TOUCH II microprocessor with many features, connectivity, versatility.

They are designed to satisfy the laundry needs of the most varied businesses, always taking into consideration efficiency and productivity as main goals.
HIGH SPIN

DHS
G FACTOR 450/350
- Soft mounted washers, free standing
- Panels in skinplate
- R.P.M. between 678 - 1231
- Easy to install, no needs of fixation to the floor, no extra costs
- Savings due to high extraction of water (45% residual humidity)

MEDIUM SPIN

DMS
G FACTOR 300
- Hard mounted washers
- Anchoring to floor with anchoring base
- Panels in skinplate
- R.P.M. between 836 - 929
- Savings due to high extraction of water (55% residual humidity)

LOW SPIN

DLS
G FACTOR 200/150
- Hard mounted washers
- Anchoring to floor with anchoring base
- Panels in skinplate
- R.P.M. between 505 - 759
- Savings due to high extraction of water (65% residual humidity)
TOUCH II

- TOUCH II, user friendly and totally programmable microprocessor with a 7” touch screen and 29 preset programs
- USB Connection, PC software free of charge for programming, traceability, data analysis...
- Remote communication
- Traceability standard
- Wet cleaning ready
- Videos on display: ads, instructions (useful for coin laundry)
- 37 languages
- 8 dosing signals as standard + optional 6 extra dosing signals

G-FACTOR

- High G-FACTOR for all range of washers comparing with competitors
- G-FACTOR 450 for High spin washers
- G-FACTOR 300 for Medium spin washers
- G-FACTOR 200 for Low spin washers
- High G-Factor reduces residual moisture and drying time

VERSATILITY

- Make to order: customisation
  New possibility to customise the machines from factory with the available options
  OPL < > Coin / Token
  Standard models easily transformable with coin/token kits
  Electric < > Hot water
  Standard electric models easily transformable to hot water models
  Drain valve < > Pump
  Standard models easily transformable
  Easy access and service
  Wet cleaning
  All washers have all features to use wet cleaning programs

CONNECTIVITY

- Remote technical service
  Machine monitoring, machine error warning, management for traceability and statistics.
  Remote desk and data recovery for technicians and maintenance, software update, etc.
- Management for laundries: OPL and COIN
  Our DOMUS IoT solution allows you to manage your laundry business (i.e. create discount programs for customers, get statistics, traceability and laundry monitoring).
- Remote payment: App for payments, cashless payment by scanning a QR code, promotions and machine booking

EFFICIENCY

- Water savings
  Possibility of configuring three levels of savings
- Optimal loading: manual indication of weight
- Intelligent Consumption: automatic adjustment of water and soap consumptions (standard)
- Prepared to be connected to water recovery tanks
- Low water consumption
  Standard washing program consumes less than 7 liters of water per kg and cycle
- High G-FACTOR 450 for High spin machines
- Reduced residual moisture > reduced drying time
- Water RE-CYCLE (recirculation of bath water)

ERGONOMICS

- Biggest door diameters in the market
  Helpful, mainly for big capacity washers, for loading and unloading operations
- Easy opening/closing system for door lock
- Plinths for 11, 14, 18, 27 and 36 kg models
  To align loading height (door base at 850 mm)

MAINTENANCE

- Hinged panel
  Easy and ergonomic access to control panel parts
- Equivalent parts
  Most key parts are the same for all models parts are same for all models (contactors, electronic devices, gear...)
- Easy access to parts for reparability
- Technical menu: traceability, error diagnosis, machine monitoring, software update...
Programmable microprocessor

**TOUCH II**

User friendly and totally programmable microprocessor with 7” touch screen and 29 preset programs

- Configuration of washing and spinning speed
- Complete regulation of water levels
- Regulable washing temperature from 20ºC to 90 ºC
- Standard WET CLEANING system

**Videos on display**
- Ads, instructions (useful for coin laundries)

**8 dosing signals as standard + optional 6 extra dosing signals**

**37 languages**
- Available and easy to configure, thanks to DOMUS aim to be accessible to everyone.

The new TOUCH II is a substantial evolution from the previous microprocessor which includes many more features mainly based on achieving more efficiency, versatility and connectivity among others.

**USB Connection**
- PC software (Wash Control) free of charge for programming, traceability, data analysis…

Front loading washer extractors
DOMUS washer extractors, whether high, medium or normal spin, are the ones with the highest G-Factor in the market, which ensures minimum residual moisture, and this translates into less energy costs during the drying cycle.

DOMUS washer extractors offer a wide variety of efficient features to make sure that the washing cycles use only the needed water and chemicals, not more.

**Efficiency**

<table>
<thead>
<tr>
<th>Water savings</th>
<th>Low water consumption</th>
<th>Optimal loading</th>
</tr>
</thead>
<tbody>
<tr>
<td>Possibility of configuring three levels of savings</td>
<td>A standard washing program consumes less than 7 litres of water per kg and cycle, and an ECO program up to 6 litres.</td>
<td>Intelligent consumption</td>
</tr>
<tr>
<td>High G FACTOR 450 for high spin machines</td>
<td>Water re-cycle</td>
<td>Automatic adjustment of water and soap (standard)</td>
</tr>
<tr>
<td>Reduced residual moisture &gt; reduced drying time</td>
<td>Optional kit to increase the care of the linen: recirculation of the bath water, which increases the water flow with chemicals, shortens the cycle and improves the effectiveness without mechanical action</td>
<td></td>
</tr>
</tbody>
</table>

**G-Factor**

High G-Factor reduces residual moisture and drying time

- **HIGH**: 450
- **MEDIUM**: 300
- **LOW**: 200

**EcoTank**

Ready to be connected to water recovery tanks

Domus washer extractors, with Touch II microprocessor and double drain, can be connected to the new Domus Ecotank which allows the water recovery, achieving important water and energy savings.
VERSATILITY

To adapt to the needs of the different businesses and sectors with the smallest investment.

DOMUS washer extractors between 10 and 36 kg are specially designed to be used in coin laundry businesses. This is available both for soft mounted machines DHS and hard mounted machines DMS and DLS.

OPL ↔ COIN
A new feature of Domus washers is its easy transformation from an OPL to a COIN machine.
Three available options:

Make to order: customization
New possibility to customize the machines from factory with the available options

Electric ↔ Hot water
Standard electric models easily transformable to hot water models

Wet Cleaning®
Thanks to DOMUS constant development, our models are equipped with the features to use WET CLEANING programs:
- Fully programmable TOUCH II
- Total control of temperature and water levels
- Programmable washing speed: very low (13 R.P.M.)
- Rhythm on/off 3seg/40seg
- Total control of dosing signal

Drain valve ↔ Pump
Standard models easily transformable
Easy access and service

Coin / Token
There are several kits depending on the currency of each country, which can be used with a token or with a new mechanical coiner kit. Both to be ordered with a coin box kit.

Central Pay
The machines can be connected to the central pay with the central pay kit to control a single box with money.

Remote payment
Machines ready for remote communication: allows programming, management and technical feedback. Multi payable systems: price updating, etc.

Open system
Domus equipment is prepared to work with any external payment system (by means of multi-point data).
THE INTERNET OF THINGS

REMOTE TECHNICAL MANAGEMENT
Machine monitoring.
Machine error warning.
Management for traceability and statistics.
Remote desk and data recovery for technicians and maintenance.
Software update.
Renting of machines.
Invoicing by cycles.

LAUNDRY MANAGEMENT
Production and program/cycles.
Working times.
Management for traceability and statistics.
Download of data in Excel.
Remote desk and data recovery for technicians and maintenance.
Software update.
Renting of machines.

COIN LAUNDERY MANAGEMENT
To monitor the business:
- create programs/discounts
- control of opening times
- control of income
- creation of machine groups (shops, models, etc.)
Management for traceability and statistics.
Download of data in Excel.
Remote desk and data recovery for technicians and maintenance.
Software update.
Renting of machines.

CONNECTIVITY
Benefits for the dealer
Remote technical management
- Machine monitoring.
- Machine error warning.
- Management for traceability and statistics.
- Remote desk and data recovery for technicians and maintenance.
- Software update.
- Renting of machines.
- Invoicing by cycles.

Benefits for the owner
Laundry management
- Production and program/cycles.
- Working times.
- Management for traceability and statistics.
- Download of data in Excel.
- Remote desk and data recovery for technicians and maintenance.
- Software update.
- Renting of machines.

Benefits for the user
Customizable app
- according to type of customer: neighbourhood association, boarding schools, etc.
- Booking of machines: availability of free machines and booking.
- Cashless payment by QR code, promotions.
- Push notifications/contact by means of an e-mail.
- Year-to-date invoicing.
- Client fidelity by means of promotions, cards, discounts, etc.

APP for the owner / dealer
APP for the user of a laundry shop

Location
of machines registered all over the globe

IOT available in all TOUCH II washers and dryers. Connection by WIFI or Ethernet

Responsibe App, native for tablets and smartphones.
Offline version available
As health and safety at work had become an important issue, our equipment is designed to be the most comfortable for the user.

ERGONOMICS

Biggest door diameters in the market
Helpful, mainly for big capacity washers, for loading and unloading the garments

Easy opening/closing system for door lock

Plinths for 11, 14, 18, 27 and 36 kg models
To align loading height (door base at 850 mm)

Equivalent parts
Most key parts are the same for all models (contactors, electronic devices, gear,…)

Reversible door

Easy access for reparability
Washers are designed to offer an easy maintenance and reparability

Technical menu
Machine monitoring, machine error warning, management for traceability and statistics. Remote desk and data recovery for technicians and maintenance, software update, etc.

Hinged panel
Easy and ergonomic access to the panel

One of DOMUS concerns is to make life easier for our clients. That includes offering quality equipment and parts of reputed brands, which demand little maintenance.

850 mm
