The new DOMUS ECO-ENERGY range includes equipment with the most efficient features: ECO-ENERGY range from 11 to 80 kg with AIR RE-CYCLE, EFFICIENT DRY moisture control, THERMAL INSULATION, new TOUCH II control, connectivity features as well as WET CLEANING system possibility. HEAT PUMP range includes also most of these features, with the advantage of lacking exhaust connection and incredible ENERGY SAVINGS.

Other ranges like DYNAMIC dryers (EFFICIENT DRY as option) and COMFORT) with new M programmer) are versatile and even the ESSENTIAL features the REVERSE DRUM and INVERTER as standard, for the most price-concerned markets.

Not to forget the STACK range with so many available models (TOUCH II or M controlled) and almost all ranges can be used as OPL or COIN by simply making a slight modification in the coiner or connecting them to a central pay.

**Single pocket**

**DTT ECOENERGY** | The most efficient

- Art RECYCLE: air recovery system for great energy efficiency.
- EFFICIENT DRY: the intelligent humidity sensor.
- THERMAL INSULATION: the complete circuit of the airflow.
- FULL FLOW: optimized axial-radial air flow.
- SFX: Integrated Fire Extinguishing System.
- Microprocessor TOUCH II: 7” coloured touch screen.
- Grey skinplate body; stainless steel look.
- Big loading door (opening of 180°).
- REVERSE ACTION: standard in all models.
- STAINLESS STEEL DRUM standard.
- SOFT DRY: the new drum with stamped holes.
- FULL SCREEN FILTER: new filter drawer with wide surface and improved airflow.
- COOL DOWN: anti-wrinkle at the end of cycle.
- OPTIONS:
  - EFFICIENT DRY: the intelligent humidity sensor.
  - SFEX: Integrated Fire Extinguishing System.
- Double pocket: STACK

**DTT DYNAMIC**

- Microprocessor TOUCH II: 7” screen for 45 to 80 kg models. 4,3” for 11 to 38 kg.
- Grey skinplate body, stainless steel look.
- Big loading door (opening of 180°).
- REVERSE ACTION: standard in all models.
- STAINLESS STEEL DRUM standard.
- FULL SCREEN FILTER: new filter drawer with wide surface and improved airflow.
- COOL DOWN: anti-wrinkle at the end of cycle.
- OPTIONS:
  - Display for M programmer.

**DTM COMFORT**

- New M programmer: push buttons to control temperature and time.
- White painted panels. Galvanized drum.
- Big loading door (opening of 180°).
- REVERSE ACTION: standard in all models.
- STAINLESS STEEL DRUM standard.
- FULL SCREEN FILTER: new filter drawer with wide surface and improved airflow.
- COOL DOWN: anti-wrinkle at the end of cycle.
- OPTIONS:
  - Display for M programmer.

**DLM ESSENTIAL**

- New M programmer: push buttons to control temperature and time.
- White painted panels. Galvanized drum.
- Big loading door (opening of 180°).
- REVERSE ACTION: standard in all models.
- FULL SCREEN FILTER: new filter drawer with wide surface and improved airflow.
- COOL DOWN: anti-wrinkle at the end of cycle.
- OPTIONS:
  - Display for M programmer.

**Heat pump**

**DTT HP ECOENERGY** | The most efficient

- Tumble dryer with HEAT PUMP Technology.
- Microprocessor TOUCH II: 7” coloured touch screen.
- Grey skinplate body, stainless steel look.
- Big loading door (opening of 180°).
- Double glass door.
- EFFICIENT DRY: the intelligent humidity sensor.
- REVERSE ACTION: standard in all models.
- STAINLESS STEEL DRUM standard.
- SOFT DRY: the new drum with stamped holes.
- FULL SCREEN FILTER: new filter drawer with wide surface and improved airflow.
- COOL DOWN: anti-wrinkle at the end of cycle.
- OPTIONS:
  - EFFICIENT DRY: the intelligent humidity sensor.
  - SFEX: Integrated Fire Extinguishing System.

**DTT HP DYNAMIC**

- Tumble dryer with HEAT PUMP Technology.
- Microprocessor TOUCH II: 4.3” coloured touch screen.
- Grey skinplate body, stainless steel look.
- Big loading door (opening of 180°).
- Double glass door.
- FULL SCREEN FILTER: new filter drawer with wide surface and improved airflow.
- COOL DOWN: anti-wrinkle at the end of cycle.
- OPTIONS:
  - Display for M programmer.

**DTM2 COMFORT**

- New M programmer: push buttons to control temperature and time.
- White painted panels. Galvanized drum.
- Big loading door (opening of 180°).
- REVERSE ACTION: standard in all models.
- STAINLESS STEEL DRUM standard.
- FULL SCREEN FILTER: new filter drawer with wide surface and improved airflow.
- COOL DOWN: anti-wrinkle at the end of cycle.
- OPTIONS:
  - Display for M programmer.

**DLM2 ESSENTIAL**

- New M programmer: push buttons to control temperature and time.
- White painted panels. Galvanized drum.
- Big loading door (opening of 180°).
- REVERSE ACTION: standard in all models.
- FULL SCREEN FILTER: new filter drawer with wide surface and improved airflow.
- COOL DOWN: anti-wrinkle at the end of cycle.
- OPTIONS:
  - Display for M programmer.
Tumble dryers

**TOUCH II**
- User friendly and totally programmable microprocessor with a 7” or 4.3” Touch II screen
- USB Connection. PC software free of charge for programming, traceability, data analysis...
- Videos shown on display: ads, instructions. (useful for coin laundry)
- Optional: New dosing/vaporizing system (softeners/perfumes)

**OUTSTANDING FEATURES**
- Reversing drum action as standard
- Stainless steel drum as standard
- Frequency inverter as standard

**EFFICIENCY**
- EFFICIENT DRY: Intelligent humidity control
- New drum inlet temperature control
- AIR RE-CYCLE: Efficient air recirculation system
- Short drying times, less energy consumption
- FULL FLOW: New “optimized” system of mixed airflow
- DOUBLE FLOW: Axial radial flow
- Big fluff filter
- Thermal insulation

**VERSATILITY**
- Make to order: customisation
- New possibility to customise the machines from factory with the available options
- Wet Cleaning
- Possibility to create different phases per programme with its customized parameters
- Efficient Dry
- OPL -> Coin laundry
  Standard OPL model easily transformable to coin laundry
- New option of black or wooden skinplate front or outer casing for DYNAMIC, single pocket, STACK and HEAT PUMP from 11 to 23 kg in coin version.

**CONNECTIVITY**
- Remote technical service
  Machine monitoring, machine error warning, management for traceability and statistics.
  Remote desk and data recovery for technicians and maintenance, software update, etc.
- Management for laundries: OPL and COIN
  Our DOMUS IoT solution allows you to manage your laundry business (i.e. create discount programs for customers, get statistics, traceability and laundry monitoring).
- Remote payment: App for payments, cashless payment by scanning a QR code, promotions and machine booking
- Drawer as fluff filter, made of stainless steel
- Big door diameters Helpful for loading and unloading
- Ideal door height for ergonomic opening
- Opening sense of door adjustable on site (models 11 to 36 kg)
- Opening sense can be changed just turning the front panel and adding a part (longer wire to be ordered)
- Reversible door can be ordered for all dryers, factory fitted

**MAINTENANCE**
- Hinged panel
  Easy and ergonomic access to control panel parts
- Easy access to parts for reparability
  Dryers are designed to offer an easier maintenance and repair
  Example: rear panel in big capacity dryer
- Technical menu
  Machine monitoring, machine error warning, management for traceability and statistics.
  Remote desk and data recovery for technicians and maintenance, software update, etc.
Programmable microprocessor

TOUCH II

User friendly and totally programmable

4,3” or 7” Touch II

Coloured touch screen:
4,3” screen (DYNAMIC 11-36 kg & STACK)
7” screen (DYNAMIC 45-80 kg and all ECO-ENERGY)
Fully programmable: 39 preset programs and possibility to create infinite more

Videos on display
Ads, instructions (useful for coin laundries)

New dosing/vaporizing system

37 languages
Available and easy to configure, thanks to DOMUS aim to be accessible to everyone.

New M programmer
Push buttons to control temperature and time. Simple and user friendly. Programmable with external console (optional). New display as option.

USB Connection
PC software free of charge for programming, software updates, traceability, data analyses and other applications.

The new TOUCH II is a substantial evolution on the previous microprocessor which includes many more features mainly based on achieving more efficiency, versatility and connectivity among others.
The new ECOEVOLUTION technology, especially in HEAT PUMP and ECO-ENERGY tumble dryers, offer a wide variety of standard efficient features to provide important energy savings.

**EFFICIENCY**

DOMUS main concern is to TAKE CARE OF THE ENVIRONMENT and ensure EFFICIENCY through our quality equipment.

**EcoEnergy**

Reversing drum action  
as standard

Stainless steel drum  
as standard except ESSENTIAL range

Frequency inverter  
as standard

**Outstanding Features**

- **Air Re-Cycle**  
  Efficient air recovery system. Short drying times, less energy consumption.

- **Efficient Dry**  
  Intelligent humidity control (standard in ECO-ENERGY and as option in DYNAMIC).

  - **New drum inlet temperature control**  
    A more accurate temperature control in the drum.

- **Thermal insulation**  
  Insulated panels to avoid loss of heat.

- **Full Flow**  
  New “optimized” system of mixed airflow in ECO-ENERGY range.

- **Double Flow**  
  Axial radial airflow in DYNAMIC, COMFORT and HEAT PUMP.
VERSATILITY

Make to order: customization
New possibility to customise the machine from factory with the available options.

OPL ↔ COIN
A new feature of Domus dryers is its easy transformation from an OPL to a COIN machine.
Three available options:

1. Coin / Token
   DTT models easily transformable from OPL to COIN in DYNAMIC, STACK and HEAT PUMP Coiner, token or mechanical coiner.
   DTM models also transformable in COMFORT, STACK and ESSENTIAL ranges.

2. Central Pay
   The machines can be connected to the central pay with the central pay kit to control a single box with coins.

3. Remote payment
   Remote communication ready (Ethernet).
   Remote programming and configuration of the machine.
   Remote desk and data recovery for technicians and maintenance.
   Multi-payable systems: Price programs, price update, etc.
   New software for coin OP laundries.

Wet Cleaning®
The best dryer for Wet Cleaning.

- Fully programmable control: possibility to program by phases
- Accurate control of in and out temperatures
- Precise humidity programming
- Adjustable drum speed

DOMUS tumble dryers between 11 and 36 kg are specially designed to be used for coin laundry business.
**Connectivity**

**Benefits for the dealer**
- Remote technical management
  - Machine monitoring
  - Machine error warning
  - Management for traceability and statistics
  - Remote desk and data recovery for technicians and maintenance
  - Software update
  - Renting of machines
  - Invoicing by cycles

**APP for the owner/dealer**
**APP for the user of a laundry shop**

**Benefits for the owner**
- Laundry management
  - Production and program/cycles
  - Working times
  - Management for traceability and statistics
  - Download of data in excel
  - Remote desk and data recovery for technicians and maintenance
  - Software update
  - Renting of machines

**Benefits for the user**
- Coin laundry management
  - To monitor the business:
    - create programs/discounts
    - control of opening times
    - control of income
    - creation of machine groups (shops, models, etc.)
    - Management for traceability and statistics
    - Download of data in excel
    - Remote desk and data recovery for technicians and maintenance
    - Software update
    - Renting of machines

**Customizable app**
- according to type of customer: neighbourhood association, boarding schools, etc.
- Booking of machines: availability of free machines and booking
- Cashless payment by QR code, promotions
- Push notifications/contact by means of e-mail
- Year-to-date invoicing
- Client fidelity by means of promotions, cards, discounts, etc.

**Location**
- of machines registered all over the globe

**IOT available in all TOUCH II washers and dryers. Connection by WIFI or Ethernet**

**Industrial/OPL laundry**

**Coin laundry**

**The Internet of Things**

**Responsibe App,** native for tablets and smartphones.
**Offline version available**
As health and safety at work had become an important issue, our equipment is designed to be the most comfortable for the user.

One of DOMUS concerns is to make life easier for our clients. That includes offering quality equipment and parts of reputed brands, which demand little maintenance.

ERGONOMICS

- **Opening sense of the door adjustable on site**
  Opening sense can be easily changed in models 11 to 36 kg. It can also be ordered from factory

- **Biggest door diameters**
  Helpful for loading and unloading

- **Big fluff filter**
  Drawer with stainless steel grid, easy to open and clean

MAINTENANCE

- **Easy access to parts**
  Dryers are designed to offer an easy maintenance and reparability

- **Hinged panel**
  Easy and ergonomic access to control panel parts

- **Technical menu**
  Machine monitoring, machine error warning, management for traceability and statistics. Remote desk and data recovery for technicians and maintenance, software update, etc.

- **Equivalent parts**
  Most key parts are the same for all models (contactors, electronic devices, gear,...)
**Tumble dryers technical data**
